

# FILL THAT GAP

## FINDING IT HARD TO FIND A FLAT(MATE) AS A STUDENT?

Renting as a student is:

- **inefficient**, often the only way to find a place to live is through word of mouth
- **time consuming**, students often have to spend hours actively searching for flatmates or spaces
- **financially risky**, students often have to move out early due to years abroad and interruptions, which can cause complications with leases and rent

A student's home affects **every aspect of their life**, and in such a key point in their career, it is incredibly important to have a comfortable, safe, and stress-free home.

Fill That Gap provides a space to **host, browse and apply to flat vacancies**, encouraging student-to-student interactions.

Students can take into account their **specific needs**, letting them make **meaningful and lasting** decisions.
